THE NEW YEAR.

Another new year! Another unit of time relegated to the bye-gones. A new link begins in the chain of time, and already we endeavour to cast the horoscope of 1884. If peace continue and the country march along in its normal groove, the New Year will show no further change than that embodied in our progressive advance in population, wealth and production. The horizon is clear and no clouds frown on the prosperity that dawns with the New Year. Peaceful as affairs look in the Plate, there are social and political rumblings in the world, and superstitious folk point to the ominous fact that 1884 begins on the day of Mars, the God of War. "Absit omen."

The South American continent is at present in a lull of peace; the struggle between Peru and Chile is at an end: Bolivia plods on her sluggish way, and Brazil is devoting her attention to internal affairs; Venezuela, Uruguay, Ecuador, etc., are all quiet. The River Plate alone shows a vital growth which eclipses that of all other sister-states; the advance of this country finds a parallel only in North America, and this vigor and vitality spring from the infusion of new blood into the nation. The stationary condition and slow advance of the sister states in this country are the most striking proof of our progressive superiority as a country, and the best guarantee of the future.

Internal dissensions and international dangers have disappeared, and industry and production are giving the Argentine Republic a preponderance more effective and more lasting than that acquired in successful warfare. Ten years hence this country will be a colossus alongside the States of this continent. Brazil alone can at present compare with this country, but we are advancing in a geometrical progression that is distancing our imperial neighbour. That this advance will continue in an accelerated ratio we do not doubt for a moment. Those who doubt the future, and strain their logic to upheave the phantom of ruin and crisis, will be dragged along or will be left behind.

Logic in the Plate is out of joint, as we had an opportunity to witness during the last three years. Thus in 1880 the country should have been utterly ruined; in 1881 we should have been at war with Brazil and Chile; in 1882 the land speculation bubble should have burst; and, finally, in the prosperous year that has elapsed the Government should have been bankrupt and all the Argentine loans in Europe should have failed. Logicians have been at fault, since the country has never been so prosperous as at present. Thus we cast the horoscope of 1884 in increased production of wool and cereals, increased value of inside and outside lands, increased figures of immigration, increased revenue for the nation, and last, not least, increased prosperity to all who follow the current and do not endeavour to turn that of the Plate with a pitchfork at the Mole-head.

For the last twenty-three years we have been preaching the advance of the Argentine Republic though war, revolution and crisis, and the editorial pen is nearly blunt grinding at the perennial subject; but all we write, and all we have written, fails to come up to the reality. In all young countries imagination plays a greater role than reason, and this may account for the sudden turns in politics, the extraordinary development of affairs in the Argentine Republic. This may account for the fact that railways pay where they were never expected to pay, that wheat yields fifty-fold where it was never expected to grow, and that the Argentine Government meets all its obligations when the burden was thought too heavy to bear. Thus the Plate is to the pessimist a country of bad expectations and pleasant surprises; and thus it will march in spite of all for many years, accumulating wealth and prosperity, if the brains of the men in power continue to keep on a par with the country. With peace the new year will be the brightest and most prosperous ever known in Argentine history; we said the same in the dawn of 1883, and the prediction has proved true to the letter.

THE NEW DIRECTORS.

The following is a complete list of the new Directors of the various Provincial institutions for this year. As nearly all these boards will during the year move out to the new Capital, La Plata, it is possible that neither the Government nor the Senate thought right to call to the boards business men whose names in previous years figured in those lists. The topic is at all points invidious and surrounded with reflections to which we have no desire to give echo; but we really cannot omit saying that it appears most extraordinary that the liberal sprinkling of foreigners in the list of country Jueces de Paz should not be extended to those great financial institutions in whose prosperity and success we have all taken so deep an interest and contributed in no small way to realize:—

EXPLORATION OF THE Y-GUASU

We have been enabled to obtain some interesting details from the late expedition to the Upper Waters of the unknown river Y-guasu, and which, in fact forms one extreme N.E. boundary line.

The expedition left Buenos Aires the 5th August, and has been absent four and a half months. It consisted of four officers—Sr. Hunter Davidson, Lt. Araña, 3rd Regt Arg. Army, Prof. O. J. Storm, ex-Lieut. Norwegian Navy, and sub-Lieut. Domeeg Garcia, Argentine Navy, and nineteen men, nine of which were soldiers from the 3d Regt. at Posadas.

As they had to pass the Gran Salto at a height of near 300 feet (the fall of water alone, as they found by observation, being 200 feet, which is 35 feet higher than Niagara) the plan was adopted of using boats in the form of a "bolsa," very long narrow boats that could be lashed side by side, and thus sustain great weight with stability, but which could be separated and transported singly over any obstructions they might encounter. The plan answered admirably, and in this way the expedition passed the Great Salto with boats of from three to four tons capacity, explored the whole of the unknown portion of the river for fifty leagues, which is filled with great rapids formed by sharp rocks and requiring the utmost vigilance and care to avoid. The expedition commenced at daylight, and continued from eight to nine hours of every day, working without shelter from the sun, rain, or insects, the latter being a torture which renders life almost unendurable in the vicinity of that river.

Not a vestige of human life was seen during the expedition, and there is no reason to believe that in all that vast stretch from the Great Salto to the Chopim there exists a human being. The expedition believe that even the Indians have been driven from the country by numerous reptiles and insects.

The river is not navigable, and is liable to sudden changes of depth, owing to the water-shed, the sierras, and other high lands being very near its banks. When it is high the current throughout is a league and a half per hour, and as the banks cannot be reached owing to the density of the vegetation, nor the bottom of the river, owing to the depth, and the current is too strong to use oars or paddles, the only method of propulsion left is to use the warp, (the Espia), which is so slow a process that not even a league can be made in eight hours of constant labor. When the river is low there is a par with the country. With peace the new year will be the brightest and most prosperous ever known in Argentine history; we said the same in the dawn of 1883, and the prediction has proved true to the letter.

The river is not navigable, and is liable to sudden changes of depth, owing to the water-shed, the sierras, and other high lands being very near its banks. When it is high the current throughout is a league and a half per hour, and as the banks cannot be reached owing to the density of the vegetation, nor the bottom of the river, owing to the depth, and the current is too strong to use oars or paddles, the only method of propulsion left is to use the warp, (the Espia), which is so slow a process that not even a league can be made in eight hours of constant labor. When the river is low there is a 'saltito' or rapid in every 'canada' adding a great degree of danger or risk to the toil of navigation. The land near the river is very low and swampy, except where the spurs of the sierra throw their rocky masses to the water's edge and render the progress difficult both by land and water.

In appearance the river in many parts is beautiful, and there are views that surpass any that can be seen on the Parana. The lovely 'Cancha Gen. Paz,' three leagues in length, with the island Gen. Paz, near the centre, and a high Sierra in full view at each end, presents a scene not easily forgotten.

Forty leagues above the Great Salto are the grand rapids, three leagues in length, and forming another complete obstruction to navigation. The middle part has three separate 'saltitos,' ranging in height from two to six feet, and stretching from one side to the other of the river.

Not even canoes can pass these rapids without having to be hauled out of water.

The Gran Salto or Saltos, 6 leagues from mouth of river, is a sight almost indescribable; the river widens out to nearly two miles at the top of the Salto, instead of narrowing, (as usual where there are saltos,) and this width of river is divided by many islands extending to the edge of the Salto, thus forming numerous Saltos, the largest of which is the Central, 200 feet high. In some parts on either side of the great Central Salto, the falls are not perpendicular but are obstructed by masses of rock, and thus become cataracts.

The waters fall into a great basin in the form of an arc, from which they rush as a 'chute' between the lofty 'paradores' or walls which run parallel and form the lower Y-guasu for a half league below the Great Salto. There is no one point either above or below the Great Salto where a view can be obtained of the whole, but by ascending a high tree at the edge of the Salto Alsina, which is the first of the Saltos on the A side, a view can be got of nearly every part, and which for grandeur and variety of scenery in form and color can not be exceeded elsewhere in the world.

It is quite certain that the vicinity of this Salto in the winter season will become a resort for wealthy pleasure seekers in the near future, for it possesses many advantages that such a place can offer, not the least of which are the numerous rocky basins with clear running water in secluded places for bathing.

The first water that can be met after ascending the height to the level of the river above is the Arroyo Alsina ending to the Eastward in the Salto Alsina, from which it stretches away to the W. N. and then East again and encircles the Great Salto. It is formed by the Argentine main shore, on one side, and on the other by the numerous islets which generally divide it from the Great Salto. On the shores of this Arroyo are some fine level rich lands admirably adapted to cultivation and not covered with tangled, dirty undergrowth, as elsewhere near the river.

The expedition carried chronometers, all necessary instruments and a complete photo. apparatus. The Lat. and Long. of all important points were established. A hydrographic reconnoissance was made of the whole river explored. Meteorological observations taken through out the exploration, and more than fifty photo. views of important positions and attractive scenery which will all be embodied in a report to the Minister of War and Marine.

One question, and that the most important, remains; it is as to our boundary line, the San Antonio-guasu a tributary of the Y-guasu. We are not at liberty to publish the information in detail obtained by the expedition, but it is of the most important nature and more favorable to our side of the question than we had reason to suppose.

The expedition repassed the rapids and the Great Salto of the Y-guasu with all the boats, and has returned without having sustained the slightest loss or injury to persons or material, although they describe their sufferings from the heat, insects and rains, without protection whilst working on the river, as almost beyond endurance. Strange to say, the Indians in the Expedition suffered more than others, principally because they were not accustomed to hard and regular work. They were often attacked with 'chuchay' dysentery, etc., and the 'Uru,' the disgusting fly that slyly deposits its eggs beneath the skin, which in time causes an awful sore and gives much pain. The two dogs were so covered with these sores, and became so annoying in consequence, that they had to be left on shore, doubtless to die in a short time.

Much game was met with, especially the beautiful "pavo de monte," averaging about 5 lbs. in weight, and the shooting of these birds alone saved a hundred and twenty odd rations.

Bandoria, partridges, etc., in great abundance. Fish were plentiful, but would seldom bite. The 'manguruzu' weighing from 40 to 50 lbs, resembles the catfish in color and form, but has no teeth or spears; its meat, in every respect, when boiled and cold is like that of the most delicate crab.

The tapir, wild hogs, deer, squirrels, carpinchas, were found everywhere, but the expedition had not a single 'baqueano' nor huntsman in it, this duty or work being performed by the officers, to whose unceasing labors, not only in a scientific sense, but toiling at the steering oar, the "portadores" and the "espia" and thus encouraging the men by their example, the complete success of the expedition is due. We shall await with pleasure the publication of the report illustrated by so many photos, the first of the kind presented to the Government, and so unique in its way.

The Orenoque's Mails.

London, 5th Dec.

The Directors of the Suez Canal, at their monthly meeting yesterday in Paris, had before them the arrangement which M. Charles de Lesseps has concluded provisionally with the British shipowners. The decision of the Board was postponed for a fortnight, in the hope that in the meantime Lord Granville will have replied favourably to the communication from the shipowners reporting the Convention.

Our Madrid Correspondent says an understanding has been arrived at, to form the basis of a new Treaty, by which Spanish wines imported into this country shall pay only one shilling per gallon up to the thirty degrees of alcoholic strength, and British imports will be placed on the most favoured nation treatment. The carrying out of the agreement will, it is said, depend on the continued existence of the Government.

The United States House of Representantives having been constituted by the election of Mr. Carlisle, a Democrat, as Speaker, a Message from President Arthur was presented yesterday. Our New York Correspondent points out that there are several differences between the Message and the recent Report of the Secretary of State. In respect to the despatch of pauper emigrants from Ireland to the United States, the President advices legislation. He suggests that the surplus revenue of the nation should be expended upon the navy and the defences of the coast. Utah, he thinks, should be deprived of self-government, and reconstituted a territory under a Federal Commission.

The Duke and Duchess of Connaught yesterday attended the ceremony of opening the Calcutta International Exhibition. The Viceroy announced that he had received a telegram from the Queen wishing success to the Exhibition.

The Marquess of Lorne delivered a lecture in the Birmingham Town Hall yesterday upon Canada. He spoke of its products, and of the inducements it offers to emigrants. The people there, he said, were proud of their connection with the Mother Country, and it was our duty to foster that feeling.

Speaking at the Liberal Club at Wolverhampton yesterday, Mr. Chamberlain repudiated the assertions that Liberals desired to set class against class, and maintained that Liberalism is the bond of union between all classes. Alluding to the rumour of a division of opinion in the Cabinet he said he could throw no light on the matter, but he could say that every member of the Cabinet was pursuing the same object, was governed by the same principles, and was animated by the same loyalty to their chief. He then referred to many statements recently made by Conservative speakers, and said that he would not deal seriously with them; he would not comment on foreign complications, but he would consider the condition of the people of Great Britain and Ireland. As to the County Franchise, the whole Liberal Party were in its favour, and he was quite prepared to look in the face any difficulties in connection with it that might exist. He then contended for the extension of the franchise, maintaining that we are worse off in this respect than other civilised nations.

Mr. Childers, replying to an address presented to him on his arrival at Pontefract last night, declared that the Liberal Party never stood at a higher level than now, and was never more united.

Mr. Trevelyan, M.P., addressed a meeting at Kelso last evening on the extension of the franchise. He said the equalisation of the county and borough franchise would do away with the evils of canvassing and of the faggot votes. Enfanchisement must precede redistribution, because when the franchise was uniform throughout the country, seats could be shifted from boroughs to counties without disfranchising anybody. Sir S. Northcote's proposal to increase the representation of Ulster at the expense of the other provinces, would greatly add to the difficulty of governing Ireland.

Mr. Rowland Winn, M.P., speaking at Brigg last night, stated that he would not vote for any measure of Parliamentary Reform until the whole scheme of the Government was laid before the House. Mr. J. Lowther, M.P., referring to the same subject, predicted that a Bill dealing with one branch of the subject would be thrown out with contempt.

The receipts on account of Revenue from the 1st of April, 1883, when there was a balance of £6,972,730, to Dec. 1, 1883, were £53,587,354; against £52,801,291 in the corresponding period of the preceding financial year, which began with a balance of £5,676,585. The net expenditure was £53,788,892, against 56,621,594 to the same date in the previous year. The Treasury balances on Dec. 1, amounted to £6,066,142, and at the same date in 1882 to 3,054,873.

The Chairman of the Peninsular and Oriental Steam-ship Company, at a meeting of shareholders yesterday, explained the differences in the terms of the new Convention with the Suez Canal Company and those of the agreement made by the Government, which was withdrawn soon after it was made last year, and said the advantages obtained by the ship-owning interest under the new Convention are very considerable.

At the adjourned Conference of Miners' Delegates, at Sheffield, yesterday, the opinion prevailed that it would be unwise to insist on an advance of fifteen per cent. It was, therefore, decided that all the notices be for the present withdrawn, and that the Conference be adjourned till the 27th inst., when it will meet in Manchester.

Lord Coleridge yesterday discharged a rule nisi which had been obtained for a new trial of an action in which the widow and children of a workman named Mitchell, who was killed at Leeds, had obtained, after the action under the Employers' Liability Act had been twice tried in the County-court, one hundred and sixty-eight pounds damages from a Mr Holdsworth in respect of his death, which was caused by his being crushed by a planing machine.

The Whalley will suit terminated yesterday, after lasting fourteen days. The Jury found that the compromise in the Probate suit, under which the Defendant Thomas took seventeen thousand pounds, was obtained by the fraud of Thomas, and that the will of March, 1881, was a forgery. Mr. Justice Manisty, after signifying his concurrence in the verdict, declared void so much of the compromise as regarded Thomas, whom he ordered to pay the costs. He made no order as affecting Gunnell, except that he should not have any costs, and said the whole matter of the will would have to be again inquired into in the Probate Court.

In an action brought by the City Corporation against Lord and Lady Brooke, to enforce an award made under the Epping Forest Act, in respect of a small freehold at Walthamstow, Baron Pollock yesterday gave judgment for the Plaintiffs.

A Prussian clergyman lately died, leaving a collection of about three thousand ancient coins. They were entrusted to a commission agent, named Chaffers, in London, on the alleged understanding that they were to be privately sold for not less than five hundred pounds. They were sold by public auction for less than one hundred pounds. The commission agent denied that any condition was made as to a private sale. An action was yesterday brought in the Queen's Bench Division to recover the five hundred pounds, but the Plaintiff was non-suited, on the ground that there was no proof of the employment of the Defendant by the Plaintiff.

In February a young man named Winn was convicted, at the Central Criminal Court, of burglary, and sentenced to eighteen months' imprisonment. Shortly afterwards a man named Poulton, lying ill at the Brompton Hospital, in the belief that he was dying, confessed that he alone was guilty of this burglary. On his recovery he revoked his confession. He has now fallen ill again, and has reaffirmed his former statement. Under these circumstances Winn's mother applied to the Magistrate at Greenwich yesterday for advice, and he referred her to the Home Secretary.

The discount rate was about 2½ per cent. yesterday, owing to trade demands incident to the 4th of the month. The Stock Markets were firm, especially for Home Railways, which were ½ to 2 better. Foreign Bonds were less steady, but left off at some advance, and Canadian issues kept firm. United States Railways were dull, and Cape of Good Hope Loans fell, on the issue of a large new loan for that Colony. Consols rose ⅛, to 100½ ⅝ for money. The Bank lost £24,000 in gold on balance.

Up to the present no discovery has been made of a clue to the perpetrators of a dastardly attempt on Monday night to upset the "Zulu" express near Codsall, on the Great Western Railway, by placing stones on the metals. Eight blocks of stone were found on the rails, four or five of them weighing from 1 cwt. to 2 cwt. each. The place is a lonely part of the line, there being no houses nearer than a quarter of a mile. It was rumoured that the Premier was in the train, as he usually travels by the "Zulu" between London and Saltney, two miles south of Chester, where the train stops on the down journey to allow the Premier to alight for Hawarden Castle. Fortunately, on this occasion, the right hon. gentleman, instead of going by the "Zulu" on Monday night, remained at Oxford. It is thought, however, that the persons who committed the outrage acted in the belief that he would be a traveller by this particular train.

LONDON LETTER

(From our own Correspondent.)

A FEW ITEMS.

December 4th.

Binns is a bungler and a botcher. He turned off Hutton at Kirkdale Prison, Liverpool, and the man, weighing nine stone, and, as Binns says, with a drop of more than eight feet, the poor wretch was nearly ten minutes in dying. The fact is, the man was not decently hanged—his neck was not dislocated—he was simply choked. The Governor of the gaol complained of the executioner's insufficient arrangements, and the jury, at the inquest, returned a verdict of "died by strangulation." Binns left the prison immediately after the execution, and was not examined at the inquest, but he has since denied that there was anything faulty in the operation. He says that, contrary to what has been stated, the rope was new and limp, and that the man was not two minutes in agony. Moreover, Binns asseverates that not a "drop" passed through his lips on the day of the execution. Other people seemed to have doubts as to the soberness of Binns. It is all very horrible, and with one or two more such cases of bungling, the gallows goes with other equally venerable supports of the Monarchy and Constitution.

O'Donnell is to be hanged on the 17th instant. The jury found a unanimous verdict of guilty, and the judge—Denman—despatched him with the usual "may the Lord have mercy on your soul," and did not allow him to address the court. The reports differ as to his conduct on receiving sentence. Some represent him as exceedingly violent, and as being dragged away muttering or shouting imprecations against the British Government and nation. In fact, he called us b——, B——sh, b——s, an expression exceedingly unlike the submissive and polite Mr. O'Donnell we have heard of since his return from the Cape, but rather confirming the finding of the jury, as it shows a political animus, as well as a foundation of vulgarity, which exists in these otherwise well-behaved criminals, who, with a smattering of education and a little money, and travel, assume manners superior to their station. Mr. O'Donnell soon recovered his real or affected composure and indifference, and since his residence in a condemned cell has found consolation in the spiritual ministration of his father confessor. Nothing transpired at the time that had any political interest. O'Donnell was treated throughout as a common murderer, and the Judge, in his summing up, laid particular stress on the fact that because Carey was a very wicked person it must not be supposed he could be killed with impunity. Mr. Russell, the prisoner's counsel, defended O'Donnell in a very ingenious speech, almost assuming the man's own version of the story as evidence, but there was nothing in any part of the proceedings to raise a doubt as to the justice of the verdict. Whilst on the question of trials and courts of justice, I may mention that the Whalley will case, which has excited much interest, has been decided. The jury found that the will was a forgery, and that Thomas was privy to it.

Amongst the little that is of interest in the news of the day is the position of M. de Lesseps. He made a convention with the London shipowners, increasing the numerical representation of the English shareholders on the Board of the Suez Canal Company, and agreeing to reduce the dues and make other concessions, and then went to Nice. Since his arrival there he has received letters, presumably from small French shareholders, calling him *fripon* and *coquin*. He has also received little boxes containing explosives; one of these was opened by an official of the company, and it absolutely went off, but without doing any injury even to the box, which looks very much as if the whole thing was a practical joke. M. Lessep's own remark was very good when he looked at his dynamite missives; he said—"they take me for a Sovereign." He is, however, not so much of a Sovereign as he thinks; and between Sultan and Khedive, British shipowners and peasant-holders, he has a very difficult business to manage. One might almost add the Madhi to the list of M. de Lessep's competitors; but, at present, we are singularly in the dark as to the movements of the Prophet, and even as to the extent of his victory; for to-day we hear, on the authority of an Austrian officer in Karthoum, that only one-third of General Hick's army was destroyed: the remaining two-thirds are entrenched, waiting for reinforcements. The third that was destroyed owing to want of water, contained, however, the whole Staff, and, it is supposed, the Commander-in-Chief. As yet we know little or nothing, but what appears to be true is, that the authorities at Cairo have, for the present, abandoned all hope of recovering Soudan, and limit their operations to the defence of Egypt Proper. One tribe after another is in revolt, and even the date of the supposed victory is said to confirm a prophecy contained in Haggai, or some book of the Old Testament, in reference to the Messiah, Alemed, or Mohamed, whom the Madhi represents.

The *Graphic* of this week, with its pictures of Hicks-Pasha and his knot of gallant European officers astride on comels' humps, or resting in tents pitched in the lonely desert, will fill your mind with admiration for the men who, for mere love of adventure and soldiering, go through so many dangers and suffer hunger and privations, when a clerk, snug in London, can for three or four shillings, sup or dine in any of the gorgeous palaces that are springing up almost within the precincts of the city around Temple-Bar. There are now no less than three newly-finished grubbing-palaces, the Holborn, the Palsgrave, the First Avenue Hotel, within easy reach of the Law Courts. They are simply magnificent, and have not the drawback of the old days of sham splendour and gaslight. Electricity adds the realities of climate and atmosphere to the Oriental glories of gilding and marble. Verily, the Giffens and Mulhalls are right. We are far better off than we were, and yet some of us, poor failures, only catch glimpses of this glitter across the gloom of the streets, and are glad to dine off whelks or a stall in Hampton Road.

Mr. John Carlisle is elected Speaker of the House of Representatives in Washington. He is a Free Trader, but objects to radical changes affecting commercial interests without some great public emergency.

The President's Message contains nothing of importance.

The Speakership of the British House of Commons has been declined by Mr. Goschen on account of a physical defect—near-sightedness. This has caused great regret, as Mr. Goschen had every other qualification for the office. They speak of Mr. Frederick Peel as another candidate. It appears he owes his nomination to a certain routine in these matters, by which Speakers are selected from those who have served as party whips. It is not in evidence what other qualifications Mr. Frederick Peel may possess.

THE RIVER PLATE BANK ROBBERY.

SENTENCE ON WARDEN.

At the Central Criminal Court to-day, before Mr. Justice Stephen, George Warden, aged forty-four, and John Davis Watters, aged thirty-one, were indicted for stealing and receiving various foreign securities of the value of £150,000, the property of the River Plate Banking Company.

Sir Hardinge Giffard, Q. C., Mr. Poland, and Mr. F. M. Abrahams conducted the prosecution; Mr. Edward Clarke, Q. C., Mr. Fillan, and Mr. H. T. Brown defended Watters; Mr Pope, Q. C., and Mr. Besley appeared for Warden.

The prisoner Warden pleaded guilty to all the charges.

Sir H. Giffard proceeded to open the case for the prosecution.

Mr. Justice Stephen said he thought it would be the better course to sentence this prisoner at once, in order that it might be understood that he had nothing to hope and nothing to fear from any evidence that he might give.

Mr. Besley said Warden was already fully impressed with that idea, and Mr Pope was desirous to urge some observations in mitigation of punishment and as to character.

Mr. Justice Stephen said he did not believe the prisoner had any idea that his sentence would be mitigated, and he considered it to be the best course that sentence should be passed before the witness Warden gave his evidence.

At the request of Mr. Besley, the matter, however, stood over.

Sir H. Giffard then proceeded with his address, and he stated that while in the service of the bank the greatest confidence was reposed in Warden. His salary was raised from £600 to £1,500, and he was in the enjoyment of that salary, and was engaged as manager and secretary, at the time these occurrences took place. The learned counsel went on to say that the broad facts of the case appeared to be that both prisoners, Watters being what is called an outside broker, gambled upon the Stock Exchange, and the amount of their losses at length became something preposterous, and their account in different securities amounting to fourteen millions sterling, and in order to supply the losses that occurred from this account securities of the value of £116,000 were stolen by Warden from the bank and were handed over to Watters, in order to be used as covers for liabilities, or were sold to pay the amount of the differences that accrued against the prisoners upon the settling day on the Stock Exchange. The learned counsel then proceeded to enter into a short detail of the proceedings that were taken by the defendants to avoid discovery. It had been suggested that the bank had been somewhat careless in the management of their business or such an enormous fraud could not have been committed. The jury, however, had nothing to do with this question and the only thing they had to consider was whether the evidence satisfied them that the prisoner Watters had taken these securities into his possession with the guilty knowledge that they had been stolen by the prisoner Warden, who had pleaded guilty. After some further observations, the evidence for the prosecution was gone into.

At a later stage Warden was sentenced to twelve years penal servitude, the prisoner being recommended to mercy on account of his conduct in his earlier career.

The trial of Watters occupied two days. He received the same sentence as Warden, and when about to be removed by the warders said: "I protest my innocence before a Higher Judge than your Lordship."

EDITOR'S TABLE.

A Happy New year to you all—subscribers, general readers and colleagues. May you all live to be as old as Methusalem, and as rich as Croesus!

The news from Rio that the Emperor of Brazil is so seriously ill that the Empress and the Princess Isabel do not leave his room for a moment has created deep regret amongst all classes and nationalities here where the public and private virtues of Dom Pedro have always been highly appreciated. We join all the loyal subjects of His Imperial Majesty in fervent wishes for the speedy recovery of the illustrious sufferer.

The Orenoque's mails were delivered on Sunday. We have to thank Messrs Dewey and Co. for sending us the latest papers. The Warden trial was a tame affair contrary to the general expectation here. He pleaded 'Guilty,' and was at once sentenced to 12 years penal servitude. The trial of Watters lasted two days. The evidence was but a repetition of what was given at the police court, and which we have already published. His sentence was the same as Warden's. So ends this strange, eventful history of mad folly and moral turpitude.

The *Cronica* of yesterday had a most convincing article on the manifest superiority of Wooden Pavement over all others. In London, Paris, Berlin and all the great capitals of Europe stone, asphalt and every other pavement is being discarded for wood; yet here we in Buenos Aires, disregarding the experience of Europe and the evidence of our own senses (in Calle Suipacha) are daily laying down the abominable stone nuisance, and that of the very worst quality and workmanship. It really seems incredible how we are always blundering in this outrageous way in this country. If the Municipality had the public interests at heart, not another paving stone would ever be laid down in this city. The eventual cost of this blundering or plundering of the rate payers of the city will be enormous, as, sooner or later the public will insist on wooden pavement, and nothing else, all over the city.

We regret to announce the death, in Glasgow, of Mr. Graham Gilmour, who was for 20 years Argentine and Banda Oriental Consul there. The Plate had no better friend as proved by his numerous pamphlets and lectures in its favour. Peace to his ashes.

The parties who advertized some time ago for Mr. D. McIvors, can hear from him by addressing him care of Mr Patrick Maguire, Navarro, B. Aires.

The Christmas number of the London *World* is very good—a most laughable skit on the manners, customs and peculiarity of "Moralia," as the writer styles the tight little island.

Messrs. Deck and Whiting's House Gymnasium is turning out a great hit here. Dozens of private families have them, and soon there wont be a single school without them. The Escuela de Artes y Oficios at San Martin purchased ten the other day, and the Provincial Government is in treaty, we believe, for a large number.

The *Scotsman* of December 1st reports a farewell presentation, to Mr. Connacher, the new Head Master of St. Andrews Scotch School by the pupils of Cauvin's Institution, Duddingston. Their was a collection of valuable books and a purse of sovereigns. On the 23d. of November Mr. Connacher was entertained at a complimentary dinner—a splendid affair. Mr. C. is expected here in the R.M.S. Tagus.

An anonymous Mr. P. D. whom the intelligent public have at once dubbed "Poor Devil," has sent round a circular stating that he is about to open here a Matrimonial Agency on the Paris model. This nex excrescence of civilization could be very well spared here.

We received yesterday the following letter from our active and intelligent casual contributor, Mr. Chs H.W., which we publish with regret. Mr. Chs. H. W. has given us a series of articles on different subjects which we always received and published with the greatest pleasure, because, although they were not always written in the pure English style (which of course cannot be expected from a foreigner) yet were read by our readers with the greatest interest, as they treated upon questions of high public interest and showed a thorough study of the subjects. We only mention his articles about Chinese Immigration, the Immigration Department and, last not least, his project about starting a Commercial Room in this city. We learn from Mr. Ch. H. W's letter that private business will not allow him to go on for the present moment, contributing to the *Standard*, and we can only assure him that, when he can find time to spare, he will always be received with open arms by the *Standard*:—

To the Editor of the *Standard*.

Dear Sir,

It is with a genuine feeling of regret that I am obliged to take leave for the present moment, of the *Standard* and its readers. Private business prevents me, beginning with the 1st of next year, from collaborating more to your valuable paper.

I can but end by thanking you for the readiness with which you always published my humble articles; that the year 1884 may be prosperous to the *Standard* and its readers is the real wish of

Yours most respectfully,

Ch. H. W.

Only the "muy ricos" will be able to smoke Havannah cigars. From today there is an increased import duty on them of 69 per cent. Ten dollar cigars will now cost 16 dollars.

We feel pleasure in welcoming back from Europe General Lucio Mansilla, who has arrived at Montevideo in the Italia, and will remain there for a few days.

The Lord Mayor had hardly landed from Montevideo when he appeared at the Corrales, while the slaughter was going on, and flabbergasted all the gentry engaged in the operation. His Lordship found everything out of 'joint' (no pun meant) and ordered several urgent reforms to be made at once. Every soul in the place petitioned that the old slaughter hours, early in the morning, should be resumed. The Lord Mayor promised to think about it, and left the place amid tremendous cheers.

Two thousand four hundred European emigrants arrived here on Sunday in the Orenoque, Italia and other vessels. Not bad to wind-up the old year.

We are inundated with more letters on the geographical puzzle started by Mr Freund. Several subscribers have threatened to "knock off" if we publish another line on the subject. We won't, except Mr F.'s reply on the whole case, which we feel bound to publish to-morrow and then Adios! to the whole thing.

We see by a commercial notice in our columns that the old Germania Tea Depot at Moore's Corner, is now exclusively in the hands of Mr Luis Scheiner, a courteous and enterprising gentleman to whom we wish a long continuance of success.

Nouvelli is making a name for himself in Paris in Verai's new opera Simon Boca Negra. It is being given in the Italian theatre and has been up to the present, a splendid success. Nouvelli was one of the Company that inaugurated the National theatre here, but was not so great a favourite as his present fame would lead one to believe. Perhaps Ferrari will put Simon B. on the Colon boards this year.

Colonel Godoy has sent a despatch to the War Office announcing the capture of 14 Indians and the usual numbers of hangers on. They are at present quartered in the Fort Paso de los Andes, but will probably either be forwarded here or settled in the vicinity. All the tribes are submitting on promise of a guarantee of support for their families, and even those that emigrated to Chile have returned.

The police force are about to re-organize their band, splendid idea if well carried out. The band of R. I. C. in Ireland is one of the crack bands of the country.

We are happy to hear that our worthy friend Mr. Thomas Kenny, so favourably known for many years in Navarro, has been "nombrado" Juez of that Town, for this year. The man could not fill the place.

A movement is on foot to retain the services of Monseñor Curley for the Partido de Navarro. A rumour is afloat, that the Irish Parish Priest of Suipacha is coming to Navarro, to fill Monseñor's post. Monseñor Curley being such a great favourite, his parishioners are loth to lose him.

What is the difference between temptation and eternity? One is a wile of the devil; the other is a devil of a while.

Mrs. Williamson requests us to mention, for the information of those friends who so kindly subscribed to her fund for the purpose, that an excellent second-hand piano, costing $6,500 m/c,

Cedulas A	101¾
Cedulas E	88¾
Cedulas F	86⅝
National Bank Shares....	130½

To-day's liquidation was a much larger business than expected, and considerable excitement was occasioned by the steady fall in both shares and Cedulas. In spite of the advances at low interest, secured in Europe on shares of the National Bank, and in spite of the shipment of the stock by the Lamport & Holt steamer the share market fell considerably this morning. Money ruled superabundant all day, and rates were easy at 7 to 8 o/o, but the heavy operators felt the pressure, nevertheless, and the stock tumbled; in one quarter over 4,000 shares were sold. Over 5,000 shares changed hands for cash; rates opened at 132¾ and fell gradually to 130¾; at this rate they closed in a very weak condition. One thousand shares were sold for the end of next month, rates opening at 133½ and closing at 132¾. An idea may be gathered of the squeeze from the fact that shares were passed to next month at ½ per share. The market rules very weak indeed during official hours, and the closing rates shewed a falling tendency. The 'vencimientos' were larger than last month, amounting to 44,820; the following comparative table of 'vencimientos' in the stock for the twelve-month will be read with interest:—

December....	44,620	at 132
November ...	42,300	132
October	46,000	129½
September...	84,000	125
August.....	44,000	119½
July.....	40,000	106½
June	35,000	102
May.....	29,000	105
April	47,000	105
March	61,000	103½
February....	43,000	105¼
January.....	49,000	102

The above figures shew that the bulls have stopped short at 132; the bullish speculation must have lost money during this month and in November. It is probable that the bulls will carry their speculation till after the payment of the dividend. The great bane of the market during the last two months has been stagnation, and this dull state of affairs threatens to be protracted, if some new tactics are not taken up by the bulls.

The Cedula market ruled very weak this morning; the Series E fell because the bulls dared not fall back on the 'providential' help that saved the bulls in the November and October liquidations. The large operators had evidently overbought, but they held back to the very last moment in expectancy of help from the Bank. Close on 700,000 Series E changed hands for cash; the market opened at 89 and then the fall began rapidly; the stock touched bottom at 88½; a reaction set in and the Series closed at 88¾. Operations for the end of next month embraced 165,000 E, rates opening at 89½, dropping to 89¼, and closing at the opening rate. The 'vencimientos' in Series E for this month were the largest of the year, as can be seen by the following table:—

January	1,457,000	at 84½
February	1,300,000	85
March	1,800,000	86
April	3,800,000	86
May.....	1,300,000	85
June.....	5,000,000	83½
July	4,300,000	83½
August.....	8,900,000	86½
September....	5,800,000	87
October	7,170,000	88
November....	6,397,000	89
December	10,783,000	88¾

Fair amounts of exchange were passed today at 47⅞; the market continues to rule firm.

The formation of the new Board of the Western Railway is the subject of severe comments in the Once. Up to 1882 it had been a traditional custom of the Executive Power to appoint a 'consignatario' on the Board, and the breach of this old custom for the second time has raised much indignation amongst all woolmen. Indeed, it would be much better if all the members of the Board were consignees of produce and woolbuyers.

The arrivals of wool in the markets continue heavy; the condition of affairs is decidedly flat, and the purchases of the 'artistas' are fewer. There is no further drop in prices, but as the weakness in the market is becoming more pronounced, a fall is anticipated for next month.

The fine steamer Maskelyne has arrived in Montevideo with late dates; her mails will come up in the Apolo. The Dart, of the R.M.S. Co., has left Rio for Santos and the River Plate.

The freight market shews no change; a scarcity of lighters is felt in port; produce is not offering very freely, and the holidays have interfered with business.

The sales at the ring during official hours were:—

Cedulas—
For cash A 11,100 at 101¾
For cash E 662,000 at 89-88⅞-89-88⅞-⅞-89 to 88⅞-⅞-⅞-⅞-⅞-⅞-⅞-⅞-⅞
For Jan. 31st E 165,000 at 89-⅞-89-⅞-89-⅞-89-⅛
For cash F 9,000 at 86⅞-⅞
Sales, 847,100.
Vencimientos, Series E $f.10,783,300.
Liquidation, 884
Vencimientos, Series F $f.57,000.
National Bank Shares—
For cash 5,278 at 132⅞-½-132-131⅞-⅞-⅞-⅛ to 131¾-½-½-131-130⅝
For Jan. 31st 1,000 at 133⅞-¼-133-½-133 to 132½
Sales, 3,278
Vencimientos, 44,620
Liquidation, 132

Mr. Congreve, the leading Insurance agent, was welcomed on 'Change.

The sale of a large number of "novillos" in the North for saladero is spoken of, but not as yet concluded; prices reserved.

At a late hour on 'Change several parties entered the hall with ready money, as the rumour was that stocks preponderated on the counter and there was no money to take them up, but nearly everyone hurried back to the banks to deposit same, it being impossible to make the cheap purchases spoken of.

The sale, in England, of a large Tucuman sugar factory is again rumoured; price they say 2,400,000 pats.

At afterhours the pressure for money was felt, and stocks, principally Bank Shares, gave way still further. As much as 3 per cent was paid on shares to carry them over to the end of January, but Cedulas did not tumble to the extent imagined, and buyers at 88½ came forward but the stock at that rate could not be had. The squeeze in the money market was still more accentuated by one or two of our principal houses calling up loans on stock to employ the money in produce; and it was said on 'Change that from 3 to 4 millions of patacones were called in to-day to close up accounts, balances and books for the year. Yet in view of all this, Cedulas did not drop more than one per cent, and Bank Shares momentarily fell about two. At 5 o'clock an auction for account of Bolsa liquidator was called, shares over:—

100 Shares sold at 129½, Penard buyer
100 " " 129½, " "
100 " " 129⅝, " "

And thus closed the great liquidation for 1883 We did not hear of a single default, everything met and liquidated.

Over half a million Cedulas E changed hands during afterhours; after the close of official hours operations began freely at 88⅜, when the immense supply of the stock brought down the market and the bulls let go at 88⅛; heavy dealers entered the liquidation parlor at this moment and in a few minutes over three hundred thousand were taken up; rates, meantime, for the end of January kept up, and many bought cash at 88¾ and sold for January at 89-½. The market closed after great excitement at 89½, buyers for the end of January.

About five thousand Shares were thrown into the liquidation parlor and a heavy fall began to set in at 130½; a slight reaction began to be felt when the stock touched 130, and strong efforts were made to prevent rates from turning the corner at 130; in this manner the stock was pushed to 130½ in a short time, when a stand-from-under-feeling possessed the market, and sales were effected as low as 129; the market for cash closed at 129½. Rates for January were maintained; operations opened at 132½, and closed at 131½ with buyers. Some operators managed to try at 129 for cash, and to sell two and three patacones higher for the end of January.

Mr R Degreef has sold the large property corner of Moreno and Caridad for 440,000 $m/c; buyers, Messrs Aguilar.

Letters from London announce the death of Mr Graham Gilmour of Glasgow, formerly Argentine Consul in that port, and one of the most active and indefatigable of the country's friends abroad. Mr. Gilmour had a very wide circle of friends in the Plate who will regret sincerely to hear of his demise.

Mr James Bell, head of the leading English firm of George Bell and Sons, who has just returned from Europe was welcomed, and enveloped in friends. Mr Bell has been absent from the Plate for many years, and during his residence in England always proved a sturdy friend of the Plate.

His Majesty the King of the Belgians has in view of the increased business relations between Belgium and the River Plate, and the greatly increased importance of Argentine affairs in his country, named on 27th November last Mr. E. van Bruyssel charge d'affaires and Consul General to the Argentine Republic. Formerly there was only a Belgian Consulate here, but now the King has raised it to the rank of a Legation.

The Lloyd Argentina Steam Company has earned last year 28 o/o on its capital and pays an interim dividend of 8 o/o.

Telegrams from London state that the agent of the Government of B. Aires there has paid the claim made by the shareholders of the Northern of B. Aires, and the Ensenada Loan is now quoted. The B. Aires Government has ordered a lawsuit to be commenced against the Company for damages.

The magnificent new premises of The English Bank of the River Plate, in Calle Reconquista, were duly inaugurated to-day, and the place was crowded with visitors who called on Mr Jones, the manager, to wish him a happy New Year and congratulate him on his new premises; the taste, style and finish of the Bank hall reflect the greatest praise on the architect. The arrangements could not be more complete, and the high windows and grand skylight throw such a glare of light upon the hall, that it really looks more spacious than it really is. The desks and fittings, we suppose, are all from London, although if the truth be told our recollection of London banks in 1878, reminds us that in this as in many other things we are much ahead of London, and we saw no bank in London so neatly and beautifully fitted up as The English Bank of the River Plate.

Mr James Kincaid of Rio Negro leaves shortly for Chile driving a large 'rodeo' of cattle and 1000 sheep through the Bariloche Pass. It seems buyers from Chile have come across and purchased the stock at very high prices. This is a new departure for the South, and may in time assume a business of great dimensions. Meanwhile a Glasgow man is the pioneer of the new trade, and we wish him the very best success in his new enterprise.

The sales of land continue in strong force, and one party who purchased some Santa Fé land "previa vista" with 30 days time, was offered

El Miercoles 16 de Enero 1884
A las 2 p.m.

Remataremos a la mas alta postura y condiciones que se estipularan mas abajo, por orden terminante de su propietario, 65,000 hectaras de campos ubicados en la Seccion 2ª y 3ª de los Territorios Nacionales.

Los numeros que se ofrecen en venta son el 3, 4, 7, y 8 de letra B la mitad Sud del numero 23 y el numero 24 de la letra D, todos de la seccion segunda y el numero 3 de la letra A, seccion tercera Territorio Nacional

Sos lotes 3, 4, 7 y 8 forman un cuadrado perfecto de 16 leguas, situado ventajosamente a diez leguas al Oeste de Trenque-Lauquen.

Por el telegrafo hace tiempo que nos hallamos en comunicacion diaria con este punto de creciente importancia.

La diligencia de Vallee cruza estos campos en su trayecto lejano al pueblo Victorica que se halla 35 leguas mas afuera.

Faltaba solo la locomotora para trasportarnos en dos dias de la capital de la nacion a la civilizacion naciente pero vigorosa de la frontera.

Felizmente esto se ha conseguido.

Los trabajos del ferro-carril del Oeste se han dividido en tres secciones.

La primera al 9 de Julio se ha abierta ya al servicio publico.

La segunda que va a Las Mellizas ya se ha empezado, y una vez terminado esto se emprenderan los trabajos de la tercera seccion que nos llevara a Trenque-Lauquen.

Dentro de dos años podemos pues, asegurar que estos campos estaran cuando mas a 18 horas de la ciudad de Buenos Aires.

Este solo hecho triplicara el valor de todas las tierras en esa direccion.

En cuanto a la calidad de la tierra de este lote de 16 leguas, nos referiremos a los informes oficiales del agrimensor Sr Maqueda quien los mensuro y amojono.

Dice el—"La calidad de estos campos es buena, siendo abundante en sus aguadas y pastos tiernos.

Hay tambien tres bosques de consideracion, de algarrobo y calden, cuya utilidad y riqueza es indisputable.

En toda la estension del campo hay 14 lagunas casi todas ellas de caracter permanente. Una de ellas de agua dulce mide 700 metros de largo por 400 metros de ancho con un buen monte a su alrededor.

Hay varios cañadones con pastos tiernos para ovejas.

Fuera de estas importantisimas aguadas dulces hay varios ojos de agua y jagüeles indios.

Los linderos son los Sres Unzue, Del Carril, Drysdale, Irigoyen y otros de igual importancia.

El lote de 10 leguas se haya igualmente bien situado.

Se compone de los numeros 3, letra A, de la seccion tercera la mitad Sud del numero 23 y el numero 24 de la letra D, seccion segunda territorio nacional.

A 4 leguas solamente del gran Establecimiento poblado del Señor Anchorena y a corta distancia de la estancia alambrada de D Saturnino Unzue, y sobre el camino precisamente que pasa de Guamini, Carhué a General Acha, se halla en contacto diario con los establecimientos mas importantes alrededor de Bahia Blanca.

Su proximidad relativa a este gran puerto y el hecho importante de estar sobre la via que pasara de Bahia Blanca a Mercedes, lo coloca en una position muy ventajosa para el poblador que prefiere una buena vecindad a la seguridad problematica de los campos mas lejanos.

Sobre la bondad de estos campos hablaran los agrimensores Maqueda y Dillon, de cuyos informes oficiales extractamos lo siguiente:—

Linea Norte—Se encuentran vestigios de haber sido una gran tolderia de indios, campo ondulado, alto y descubierto, hay un buen monte de Chañares y Caldenes.

Linea Oeste—Campo accidentado abundando la gramilla en los montes.

Linea Este—Montes de caldenes, terreno poco accidentado con lagunas.

Linea Sud—Hay montes, cañadas de agua dulce, y muchos caminos indios.

Abundan los pastos puna dulce, trevol, gramilla colorada cerca del angulo S O hay vestigios de Tolderias de indios donde convergen los distintos caminos cruzados por las lineas. Hay gran cantidad de jagüeles de agua dulce. E-te punto es concido por el nombre de "Ranquilco."

Por folletos y planos de estos campos, ocurrir a nuestra casa, Alsina 78.

A las 2 en punto de la tarde

Venderemos a la mas alta postura y a los plazos arriba indicados 32 leguas de esp endido campo, ya celebre por sus ricos pastos tiernos, sus abundantes aguadas y la fertilidad de sus tierras.

Los numeros en venta son el 11, 19, 20, 21 y 22 de la letra A, y el 1, 2 y 9 de la letra D, Seccion 8, Territorio Nacional.

Todavia existen alli los vestigios de las Tolderias de los Ranquelos, sus rancherias, sus corrales y sus jagüeles de riquisima agua.

Estos campos y los inmediatos a la Ciudad de Buenos Aires, son los verdaderos

Campos de pasto tierno

Los primeros por haber estado en el poder tranquilo de los Indios por mas de un siglo, y los otros por haber sido ocupados por los cristianos.

Los campos de pastos duros son los de la zona intermediaria, donde ni el indio ni el cristiano se aventuraban a permanecer por temor-e mutuamente.

Solo asi puede racionalmente esplicarse el hecho notable de que en la seccion octava se encuentran pastos tiernos iguales a los campos de adentro que valen hoy pesos 3,000,000 la legua.

El informe del agrimensor Alsina sobre estos campos dice textualmente asi:

"Estos campos que fueron ocupados por los indios Ranqueles se encuentran respecto de calidad y cantidad de pastos, montes, piso, etc, en identicas condiciones que los campos de Leubuco y Poitagüe, cuya superioridad es publicamente conocida."

"Dice el agrimensor Pico que los arboles de esta region son inmensos, entre ellos los hay que miden cuatro y media varas de circunferencia en su tronco principal abarcando con sus ramas un diametro termino medio de 3 varas."

Apesar que algunos colocan el Pueblo Victorica, ya una poblacion de 1500 almas, en el lote 23, los propietarios de estos campos tienen datos particulares de personas de esa localidad que los permiten declarar que se encuentra en el 22 el lote lindero, o sea en el corazon de estos campos.

Fuera de una infinidad de jagueles de agua riquisima el campo tiene las lagunas siguientes—Poitagüe, Aucatmelué, Lui Carreta, Tirlin, Utra Trigoin, Echoué, Quilla Luuquen, Quitripil, Antiguco, Guada y varias otras de lluvia sin nombre.

Por planos y folletos ocurrir a nuestra casa, Alsina 78.

Las condiciones de pago son ¼ parte al contado, y el resto a uno y dos años de plazo sin interes y con pagares hipotecarios.

El Jueves 10 de Enero de 1884
A las 2 p.m.

Remataremos a la mas alta postura y condiciones que se estipularan mas adelante, por cuenta y orden de su propietario.

3000 cuadras cuadradas campo flor, reputado como de los mejores de la Provincia y que en malos años como el que ha pasado ha mantenido 25,000 ovejas en legua y han tenido buen aumento.

Basta saber y recordar que los Sajones fueron fundados por el Sr. D. Juan Harratt uno de los primeros y mas inteligentes criadores de la Raza Merina, quien seguramente no habria elejido este campo, hace lo menos 35 o 40 años, si no lo hubiese reconocido como sobresaliente por su objeto.

Las 3000 cuadros seran divididas en lotes pequeños, para ponerlos asi al alcance de todos los bolsillos, dando al mismo tiempo opcion al primer comprador a tomar uno o mas lotes.

Creemos enteramente escusado llamar la atencion de los que se dedi an a negocios de campo, sobre la calidad de la tierra y de los pastos, una y otro son de primer orden y pueden destinarse tando a la ganaderia como a la agricultura, sin temor de ninguna clase; ademas de esas ventajos tiene otra muy importante y es la proximidad a la capital, de la capital, de la cual solo distan estos campos un poco mas de 14 leguas, y 5 leguas de la estacion Jepener, Ferro Carril del Sud.

Una vez terminados los ramales que van a la Plata y Puerto de la Ensenada las facilidades para el embarque de todos los productos de este partido contribuiran un poco a aumentar el valor de esos campos.

Las personas que deseen inspeccionar el campo pueden dirijirse a Jeppener donde sale un coche correo los Martes y Sabados, y que los deja en la Estancia Los Sajones y con previo aviso habra alli un carruage especial.

Las condiciones de venta son sin base y al mejor precio.

Los lotes seran mensurados y amojonados una vez escontuardos.

GREAT FIRE
IN
GLASGOW.

Patent "Rapid" Fire-Engine.

R. & J. JARVIE,

MANUFACTURERS,

19 Stobcross Street,

GLASGOW.

Testimonial from Alexr. Sinclair, Esq., Manager, *Herald* Office, Glasgow

Office of *The Glasgow Herald*,
Glasgow, 10th Nov., 1883

Gentlemen,

In connection with the Great Fire in Buchanau Street and Mitchell Street which besieged our premises on Saturday night last, I can say without reserve that your handy "Rapid" Fire-Engines, of which we have seven, did most invaluable service in the hands of our men by preventing the fire catching and in extinguishing it where it was burning. At one of the most critical moments, when the flames had seized upon one of our side rooms and were about to spread to the heart of the building, one of your Machines was applied to the burning parts with the most effectual and gratifying result.

I may add that had one or two of these Extinguishers been upon the roof of our neighbour, Mr Jenkins, the probability was that his building would have been saved, and we would thereby have been preserved from the extreme jeopardy we were in.

Yours truly,

(Signed), ALEXANDER SINCLAIR.

To Messrs. R & J Jarvie,
19 Stobcross Street,
Glasgow.

Extract from *Chambers's Journal*, 26th May, 1883.

"Knowing as we do that prompt measures taken at the first may save the premises, we have introduced into those of this Journal half-a-dozen handy little portable Fire-Extinguishers, termed the 'Rapid,' which seem all that can be desired. They are manufactured by R & J Jarvie, 19 Stobeross Street, Glasgow.

NOTICE
TO
ESTANCIEROS

I beg to announce that I am about to publish a book of the marks (de hacienda) of this province which will also contain the names of their respective owners and partidos in which they reside.

In compiling this work the effort will be to produce a correct and complete volume of the marks of the English-speaking community.

In order to facilitate the easy finding of any mark in the book each partido will appear separately, but all printed in one volume and the names of marks placed in such alphabetical order as to make the book intelligible to all.

The object of the work is to enable the owners of horses, cattle or other property that bear their brands, to recover same should they be lost, stolen, or driven away by storms. Not a day passes without strange animals appearing on the camp of some estanciero who is only too willing to notify the proprietors of their presence if he but knew to whom they belong. A glance at this book will give all the knowledge required. A network of information will thus be spread throughout the country enabling the world to know the owners of animals that may have been either stolen or lost. The benefits that will accrue to stock-owners by such a book cannot be overrated.

The objects it will accomplish may be summarised thus.

Firstly—It will enable every person to know each others marks and thus prevent the systematic robbery of animals.

Secondly—It will give power to any person residing in a distant partido to recover for another by writing for his certificado any animal found in the possession of the unlawful holder.

Thirdly—It will save labour and anxiety to those who have now to ride day after day campeando lost horses.

Fourthly—As nearly all foreigners here have national associations for the protection of their interests, this work will be a means of defending the vast interests of the Irish and British residents of this province.

Therefore every brand holder should avail of this opportunity of having his name and mark published in order to secure his property whether it consists of only a few animals or of thousands. Through advantages possessed by the publisher the books will be issued at a price that will bring them within the reach of all and will be sold throughout the province from San Nicolas to Bahia Blanca, and from Buenos Aires to Lincoln, so that whatever number of marks is received will be printed.

In order to collect the marks of the various partidos a house in each town will receive a small book for this purpose where they may be inserted.

Therefore persons desirous of having their marks to appear in the book can now register them on payment of fifteen dollars each at any of the following places:—

Buenos Aires, Mauricio Larrandé, Hotel del Estacion 11 Setiembre.
Mercedes, Llorente Cildory Garcia & Co.
Suipacha, do do.
Chivilcoy do do.
Chivilcoy, Hotel Español.
Bragado, Llorente Cildey Garcia y Co.
Navarro, Manuel Perez, Calle Suipacha.

Other towns will be named later on.

N.B.—In drawing marks clear and faithful copies should be given; by placing the boleta beneath the page of the book a facsimile of the mark may be traced through the paper.
